International Morphological Processing Conference (MoProc)

Thursday, June 22, 2017 - Saturday, June 24, 2017

SISSA Main Campus

Scientific Program

The program for MoProc 2017, in its final version, is available here.

Symposium 1 -- Quantitative Morphology

Organized by Petar Milin, University of Sheffield, and Jim Blevins, University of Cambridge

Symposium 2 - The time course of morphological processing as revealed by analyses of distributions and of means

Organized by Laurie Beth Feldman, Haskins Laboratories

Symposium 3 --Theoretical linguistics

Organized by Adam Albright, MIT

Symposium 4 -- Morphology and Neuroscience

Organized by Jon Andoni Duñabeitia, Basque Center on Cognition, Brain and Language (BCBL)

Special Event -- Morphological processing, ten MoProc editions later. Open discussion forum, led by MoProc's founders

Delivered by MoProc founders, Ram Frost, the Hebrew University of Jerusalem, and Jonathan Grainger, CNRS and Aix-Marseille University. Chaired by Kathy Rastle, Royal Holloway University of London

Freely Contributed Paper
