Lunch & poster 2: POSTER (2) DAL 186 AL 322 - Cortile (12:30 PM - 2:30 PM)

[id] title	presenter	board
[199] Rilevazione della sincronizzazione fisiologica nel servizio di counseling universitario	PIRO, Alessandro	
[188] The influence of psychological factors on functional status in fibromyalgia	Dr MELLACE, Denise	
[249] Cognitive and reading profiles of healthy older adults. A preliminary investigation combining neuropsychological assessment with multimodal digital recordings	PIRRELLI, Vito	
[189] Upper Limb Embodiment and the influence of Haptic, Thermal and Nociceptive Feedback – A Systematic Review	Mx INGENITO, Alessandro	
[196] Riabilitazione a lungo termine della memoria episodica in pazienti post-ictus: un trial con adattamento prismatico e serious games	Prof. OLIVERI, Massimiliano	
[186] Relationship between creativity and psychiatric disorders	Dr DE SANDI, Angelica	
[193] The role of the cerebellum in gaze perception and social attention: a Transcranial Magnetic Stimulation study	MANNA, Gabriele	
[322] L’emotion detection nel settore bancario: uno studio pilota	BORRELLI, Patrizia	
[229] Practical Driving Test Anxiety: A Study to Assess the Impact of a Specifically Designed Program	BIASSONI, Federica	
[312] Inhibition changes across the lifespan: experimental evidence from the Stroop task	TROISI, Giovanna	
[215] The Social Media Fatigue Scale (BSMFS): A Brief Version	NASONTE, Giuliana	
[233] Darts’ fast-learning reduces theta power but is not affected by Hf-tRNS: A behavioral and electrophysiological investigation	CORNACCHIA, Ester	
[204] Contributo alla validazione italiana della “Motivation to have a Child Scale” (MSC)	Dr CUCINELLA, Nicla	
[212] Assessing Sleep, Circadian Rhythms and Mood: development of the revised version of SCRAM questionnaire.	MARCACCIO, Martina	
[287] Spike-time-dependent plasticity induction reveals dissociable ventral and supplementary premotor-motor pathways to automatic imitation.	Dr TURRINI, Sonia	
[243] Preliminary validation of the Exam Metacognition Inventory	MOLLAIOLI, Daniele	
[237] Impact of Implied Motion on Time Perception and Human Spatio-Temporal Dynamics	DE TOMMASO, Matteo	
[276] Shareability: a novel perspective on human-media interaction	BRUNO, Nicola	
[273] L’evoluzione della nostalgia: un’esplorazione scientometrica	SARCINELLA, Eleonora Diletta	
[214] Virtual reality in affective disorders: a pilot study on cognitive performance and electroencephalographic correlates of depression	FLORIS, Matilda	
[224] The Protective Role of Cognitive Reserve in Mediating Depressive Symptomatology in Patients with Multiple Sclerosis	BIASI, Madia Marika	

[203] Strumenti per la rilevazione della Qualità della Vita associata alla salute in persone con sclerosi multipla: una revisione sistematica COSMIN	Mr DONARELLI, Edoardo Dr TOSCANO, Anna	
[280] Representational organization of grasping actions across motor execution and imagery	MARRAS, Laura	
[286] Examining size constancy dynamics in perception and action	MAZZI, Chiara	
[241] Yoga, Cognitive Health, and Emotional Well-being. A Systematic Review on Healthy Young Adults	RIZZUTI, Martina	
[251] Olfactory targeted memory reactivation during sleep as a tool to modulate sleep and dreams	PEDRESCHI, Bianca	
[279] The Additive Bias Implicit Association Task: a tool to detect and quantify the additive bias	Dr NERONI, Maria Adriana	
[261] Io, tu e ... lo smartphone: differenze di interazione digitale tra generazioni	LISO, Alba	
[310] Decision-Making Factors in Insanity Assessments: A Systematic Review	CASALE, Simona	
[225] La difficoltà percettiva nell'euristica di causalità	VICOVARO, Michele DALLA BONA, Stefano	
[201] Cognitive conflict effects on stimulus processing and consequent memory performance.	CIARROCCHI, Nicolò	
[240] The effect of hand actions on numerical magnitude and order processing	RANZINI, Mariagrazia	
[292] The dynamic duo of reactive control: Do two reactive control mechanisms exist?	VIVIANI, giada	
[266] Electrophysiological evidence for differing autobiographical memory retrieval routes	TALBOT, Jessica	
[296] Mixed transcortical aphasia after stroke: a single case report with advanced disconnectomic analyses	BELLIN, Irene	
[301] Adjusting our behavior in social settings: the role of motor inhibition	MANINI, Aurora	
[319] Beyond Dichotomies: the Semantic Gradient in a Picture-Word Stroop Task	DI PIETRO, Irene	
[245] Physical exercise and risk-taking behavior: how are they related one another?	TURCO, Elena	
[311] Reduced fMRI Functional Connectivity of Language-Related Cerebellar Regions of Schizophrenia Patients	Dr BIONDI, Margherita	
[348] Bodily processing shapes social cognition across the life cycle: impact on empathy and theory of mind	Ms CANINO, Silvia
