

# AIP Sperimentale 2024, 30° Congresso annuale

## Wednesday, September 25, 2024

**Lunch & Poster 3: POSTER (3) DAL 326 AL 448 - Cortile (12:30 PM - 2:30 PM)**

[id] title	presenter	board
[73] “Thinking outside the box”: Exploring the effect of Local-Global Processing Styles in Creative Generation and Evaluation.	ESPOSITO, Clara	
[336] Correlations between gustatory, olfactory, cognitive function, and age in healthy women	Prof. SANNA, Fabrizio	
[408] The unconscious effect of emotional information on spatial working memory performance	CIANFANELLI, Beatrice	
[328] 'Despite the noise, I can see what you mean': audiovisual speech in different noisy situations	Dr GASTALDON, Simone	
[438] Is the dorsal stream engaged in object shape recognition? A ccPAS Registered Report study	BERTACCO, Elena	
[398] Unveiling synaptic and transcriptomic signatures of approach behavior in medial prefrontal cortex pyramidal neurons: the involvement of excitatory neurotransmission and immune system	PANUCCIO, Anna	
[418] Un approccio neurofisiologico al riconoscimento emotivo di volti e corpo: uno studio di stimolazione transauricolare del nervo vago (taVNS)	LEEMHUIS, Erik	
[410] Perceived body image in long-term mindfulness practitioners	DE PASTINA, riccardo	
[443] SMARTPHONE OVERUSE, DISTRAZIONE DA SMARTPHONE, MOTIVAZIONE, AUTOREGOLAZIONE, PROCRASTINAZIONE E DROPOUT: QUALE RELAZIONE? UNA RICERCA EMPIRICA	MASCIA, Maria Lidia	
[440] Identificazione delle barriere all’aderenza farmacologica per la creazione di strumenti tecnologici personalizzati	GORINI, Alessandra	
[393] The ‘Digital Interventions for Psychological and Psychiatric Services’ (DIPPS) Project: An Early Warning Prediction System Relying on Bayesian Networks	PANZERI, Anna	
[327] Emotional Temporal Distortions: Exploring Pupil Dilation as a Gateway to Temporal Processing	MIONI, Giovanna	
[442] Exploring similarities and differences between gaze and arrow targets in spatial interference tasks: A Drift Diffusion Modeling approach.	Mr PONCE, Renato	
[435] Assessing User Experience in older adults: a valid and tailored evaluation tool	BRUNI, Francesca	
[384] Il ruolo delle aree linguistiche nel Right Ear Advantage percettivo e immaginativo: uno studio rTMS	ROLLO, Benedetta	
[404] The Uncanny Valley in Psychopathic and Schizotypal Personality Traits as a Tool to Understand Human-Robot Interaction and Social Cognition	Ms GANGEMI, Clara	
[339] Oltre il Tempo: validazione di uno strumento di misurazione della Prospettiva Temporale attraverso il framework dell’autoregolazione	MARSON, Alex	
[448] The Role of the Submental Muscle in Consumer Preferences: Electrophysiological Analysis in a Virtual Supermarket	FERRAIOLI, Francesca	

<b>[366] Does the brain employ mouth movements to predict upcoming words?</b>	PIAZZA, Giorgio Dr GASTALDON, Simone	
<b>[386] Does psychopathology need vision to develop? A Systematic Review of the Link Between Congenital Blindness and Psychiatric Disorders</b>	Ms BATTISTA, Martina	
<b>[326] Evaluating Cognitive Impairment in Idiopathic Normal-Pressure Hydrocephalus through Rey Auditory Verbal Learning Test</b>	MAIUOLO, Maria Lucia	
<b>[354] Understanding the Impact of Limb Dominance on Body Representation Following Amputation: Insights from a Behavioral Study</b>	RUSSO, Cristina	
<b>[362] Spatial orientation and cognitive maps: piloting a new, virtual tool</b>	UMILTÀ, Alberto	
<b>[446] Moral predictors of antivaccination attitude in the Italian COVID-19 post pandemic era</b>	CASULA, Antony	
<b>[447] Increasing emotional distancing with prism glasses: dissociated gender and adaptation direction effects on alexithymia in healthy individuals?</b>	CULICETTO, Laura	
<b>[379] Delving into cooperativeness for deconstructing moral judgments in self-sacrificial dilemmas under time constraints: preliminary results from a preregistered study.</b>	Prof. CUTINI, Simone	
<b>[381] Fluctuations of Responsiveness in Minimally Conscious State patients: an EEG and ECG study</b>	GALIOTTA, Valentina	
<b>[369] Exploring the Complex Interplay between Cognitive Reserve, Emotional States and Cognitive functioning</b>	Dr GASPARRE, Daphne	
<b>[423] Generalization of value-driven attention</b>	FERRANTE, Deborah	
<b>[357] FEELING FATIGUE IMPACTS BRAIN RHYTHMS IN POST COVID-19 PATIENTS</b>	Dr MASTROMARINO, Silvia	
<b>[388] “There's a bug in my plate!” Vicarious Approach-Avoidance and Attitudes Toward Insect-Based Foods</b>	FEDELI, Francesco	
<b>[294] Art &amp; Environment: the evaluation of beauty and meaning between art and nature, and their effects on environmental intentions and behavior.</b>	NADDEI GRASSO, Eduardo	
<b>[355] Exploring Sex-Related Differences in Emotional Processing Through Verbal Analysis: A Study Utilizing the Toronto Structured Interview for Alexithymia and Natural Language Processing</b>	LARICCHIUTA, Daniela	
<b>[359] Emozioni tridimensionali: I Video Volumetrici per l'assessment psicologico</b>	SIMONCINI, Gloria	
<b>[363] Do Hand Gestures interact with Random Number Generation?</b>	Dr DE MUYNCK, Glenn	
<b>[365] RECODE: a new, open access, computer-based platform for cognitive stimulation in Italian</b>	LIVOTI, Vincenzo	
<b>[387] The dyadic invariance of the parent version of the Elementary School Abbreviated Math Anxiety Scale in parental dyads</b>	DI LEONARDO, Laura	
<b>[437] The effectiveness of functional Near-Infrared Spectroscopy (fNIRS) for investigating sensorimotor processing in numerical cognition throughout the lifespan.</b>	NOACCO, Sara
