Saturday, September 13, 2025

**Advanced Applications of Noninvasive Brain Stimulation and EEG in Experimental Psychology: JUNIOR SYMPOSIUM -**  
**Aula A1 (Pareto) (9:00 AM - 10:30 AM)**

-Conveners: Luca Tarasi

| time     | [id] title   | presenter                  |
|----------|--|----------------------------|
| 9:00 AM  | [799] Advanced Applications of Noninvasive Brain Stimulation and EEG in Experimental Psychology                                  | TARASI, Luca               |
| 9:20 AM  | [667] Linking Corticospinal Excitability and EEG Motor Rhythms During Action Observation: Insights from an EEG-TMS Study         | BAZZINI, Maria Chiara      |
| 9:40 AM  | [837] On the Role of Posterior Connectivity in Learning and Exploiting Statistical Regularities: A Neuromodulation and EEG Study | TABARELLI DE FATIS, Chiara |
| 10:00 AM | [890] Alpha oscillations causally support the integration of expectations in metacognitive confidence                            | TARASI, Luca               |
| 10:20 AM | [1032] Open discussion   |                            |
