**Innovations in psychometric modelling: New approaches to understanding psychological measurement - Aula A1 (Pareto)**  
**(9:00 AM - 10:30 AM)**

-Conveners: Giorgia Tosi

time	[id] title	presenter
9:00 AM	[726] Innovations in psychometric modelling: New approaches to understanding psychological measurement	TOSI, Giorgia
9:00 AM	[728] To aggregate or not to aggregate: Effect-variant measurement models and their advantages	TOSI, Giorgia
9:20 AM	[600] Rasch 2.0: A Linear Mixed-Effects Models approach to obtain Rasch-like estimates of accuracies and response times from fully-crossed design data	EPIFANIA, Ottavia
9:40 AM	[930] Assessing Discriminant Validity in Clinical Psychology: Combining Exploratory Graph Analysis and Structural Equation Modeling	PANZERI, Anna
10:00 AM	[581] An integrated game-based approach for assessing mathematical performance and related affective factors	Dr DONATI, MARIA ANNA
10:20 AM	[1028] Discussion
