

AIP Sperimentale 2025, 31° Congresso annuale

Saturday, September 13, 2025

Lunch and poster 3 (12:30 PM - 2:30 PM)

[id] title	presenter	board
[853] The influence of spatial encoding on the fate of sensory memory representations unselected by the (retro-)cue	D'ANGIÒ, Monia	
[858] Pupillometric signature of implicit learning of statistical regularities	Prof. TURI, Marco	
[883] Is that my body? The influence of body size and body appreciation on the sense of ownership over a virtual body	DI NATALE, Anna Flavia	
[940] Photodiode-based triggering system for reliable ERPs recording in visuomotor tasks	Ms SCHIRRIPA, Aurelia	
[951] Physiological and psychological markers of recovery after high-intensity anaerobic exercise: Preliminary evidence from a multi-country study	LAEZZA, Luca	
[960] Descrizioni di percorsi: i suoni naturali possono fare la differenza nella formazione delle rappresentazioni?	MUFFATO, Veronica	
[996] Are electromagnetic hypersensitivity and fibromyalgia actually a small fiber neuropathy? A preliminary study	CONTE, Stella	
[860] Spatial associations of losses and gains: Evidence of a SNARC-like effect of valence in a magnitude classification task	MARICONDA, Alberto	
[973] Beyond Forgetting: The Role of Attentional Dynamics in Sustaining Memory for Naturalistic Environments	MAUTI, Marika	
[848] The relationship between sensorimotor synchronization and attentional sensitivity to perceptual violations	BARBARESI, Marco	
[873] Reshaping Self–Other Representation: The Effect of Compassion Meditation on Peripersonal Space	DE PASTINA, riccardo	
[902] Sensorimotor Reactivity to COVID-19 Vaccination: A TMS Study on Vaccine Hesitancy	MASSIMINO, SIMONA	
[861] Grasp-compatibility effects for object names do not differ between singular and plural forms	DE MUYNCK, Glenn	
[903] From healthy ageing to mild cognitive impairment: The role of executive functions	CIPRIANI, Giuseppina Elena	
[974] The Role of Beta Oscillations in Mental Time Travel, Intertemporal Choice and Prospective Memory: A tACS Study	MARSON, Alex	
[865] Clinical Validity and Utility of Fully Idiographic Network Analysis: A Study of Clinician-Patient Dyads	Dr ANDREOLI, Giovanbattista	
[879] UN'INDAGINE SULL'INTERAZIONE TRA STATO D'USO DEGLI OGGETTI E PERICOLOSITA' PERCEPITA	D'ASCENZO, Stefania	
[852] Lo sviluppo della Memoria Autobiografica Episodica in età prescolare: evidenze da uno studio longitudinale	RUSSO, Loredana Carmen	
[982] Facial expression analysis of implicit aesthetic processing	NARDO, Davide	
[840] Frail elderly people' impaired anticipatory cognitive brain processing	BOCCACCI, luca	

[956] Impatto della riserva cognitiva sulle funzioni esecutive e sul rendimento accademico degli studenti universitari digitali	BELLUARDO, Giulia	
[804] Implicit Acquisition of Orthographic Regularities in Italian Children: A Longitudinal Study of Reading, Writing, and Orthographic Judgement	D'ELIA, Paola	
[838] Correlations between olfactory and gustatory function and cognitive abilities in the elderly: a preliminary study	SANNA, Fabrizio	
[813] Does REM sleep Fragmentation affect micro- and macro-structure features of Slow Wave Sleep?	NACCARATO, Federica	
[993] La codifica visiva di strumenti familiari e non familiari	VALIO, Luigi	
[807] Age-related shifts in retrieval strategies modulated by conceptual interference in long-term visual memory	TUCCI, Federico	
[936] Effector-Independent Sources of Variability in Upper and Lower Limb Gestures	ARNAUDO, Alessandro	
[833] Il ruolo dell'esecuzione musicale espressiva vs meccanica su piacere e voglia di muoversi	FULLONE, Eleonora	
[995] A Novel Eye-Tracking Approach to Cognitive Screening in Parkinson's Disease	Dr CAFARO, Celeste	
[925] How temporal summation of second pain develops along trials, trains and across concomitant tactile stimulations	MARTINI, Matteo	
[866] Titolo: Modulazione esogena della frequenza cardiaca e dello stato psicofisiologico	Dr SALZILLO, Alessia	
[939] The Silent Guide: How Inner Speech Shapes New Action Learning and Performance	GERVASI, Angelo Mattia	
[772] Clinimetrics: Toward a Diagnostic Neuropsychology	Dr ILARDI, Ciro Rosario	
[992] Validazione italiana del "Depression, Anxiety and Stress Scales (DASS)" in adulti anziani	D'IGNAZIO, Giorgia	
[825] Creativity and Cognitive Health: Divergent Thinking in the Context of Successful Aging	BONFIGLIO, NATALE SALVATORE	
[832] Preliminary steps for the validation of a multidimensional scale for assessing perceived value of citizens on public spaces	DAMIAN, Ottavia	
[834] Analisi semantica degli item tramite gli embedding dei Large Language Models per la predizione della struttura fattoriale a priori nei test psicometrici	LUONGO, Maria	
[966] Profiling Risk Disposition Through Psychophysiological Insights: A New Digital Task	TURCO, Elena	
[507] Offline states and memory retention of true and false memories	SPERDUTI, Marco	
[955] Implicit and emotional responses to mortality in Sufi meditators: evidence from affective misattribution and death-thought accessibility tasks	SIMIONE, Luca	
[962] FLESSIBILITÀ PSICOLOGICA, COMPORTAMENTI A RISCHIO E ONESTÀ ACCADEMICA: UN'ANALISI TRA GLI STUDENTI UNIVERSITARI	Dr VARRASI, Simone	
[889] Vocal Markers in Aviation of Workload, Stress, Fatigue, and Sleepiness: A Protocol Validation Study	BIASSONI, Federica	
[824] Risposte Esplicite e Implicite ai Volti Infantili: Effetti sul Comportamento di Cura in uno Studio con Simulatore Infantile	Dr FIACCO, Giacomo	
[904] The Cognitive Functioning Instrument: a new cut-off value for subjective cognitive decline	DILETTO, Paolo	

[894] “Era meglio ai nostri tempi”: la relazione tra salute percepita e benessere soggettivo nelle diverse generazioni	BORRELLI, Patrizia	
[911] Treating Temporal Disorders in Spatial Neglect Using Virtual Reality and Prismatic Adaptation	FRANCO, Giulia	
[935] Nature and Music Videos Promote Recovery from Induced Stress	SERRA, Hilary	
[958] Embodied minds in a digital age: environmental influences on neurocognition, personality, and psychopathology	Prof. CHIEFFO, Daniela Pia Rosaria Dr MENGHINI, Deny Prof. DEL GIUDICE, Marco	
[968] Incontrare la parte compassionevole: uno studio online su self-compassion, rilassamento e differenze individuali	Dr PIZZOLI, Silvia Francesca Maria	
[964] Reaching e grasping di oggetti nella Realtà Fisica e in Mixed Reality: un’analisi cinematica ed elettromiografica	MIGLIORI, Denis	
[963] Parallel semantic reading of multiple words in aging	MENGHINI, MATILDE	
[976] VALUTAZIONE PSICOLOGICA DEL BENESSERE NEGLI STUDENTI UNIVERSITARI: IL RUOLO DELLA REGOLAZIONE EMOTIVA	GUERRERA, Claudia Savia	
[863] IL RUOLO DELLA rTPJ NELLA PRESA DI DECISIONE SOCIALE: EVIDENZE DA UNO STUDIO TMS	Dr FERRARA, Antonella	
[952] Representational Momentum reveals the joint contribution of context and kinematics to action representation	MARONATI, Camilla	
[929] "Exploring the Relationship Between Sexual Orientation and Moral Reasoning"	Dr GIUNTA, Alice Lia Carmen	
[946] What am I grasping? Deepening cortical and corticospinal spatiotemporal dynamics underlying grasping observation	GUIDALI, Giacomo	
[906] The positive effect of preserved cognition in subjective cognitive decline: a longitudinal study	VITALI, neri	
[893] Effetti del bias additivo nei processi di immaginazione mentale	Dr NERONI, Maria Adriana
