

Sixth deal.II Users and Developers Workshop

Contribution ID: 0

Type: **Invited talks**

Welcome remarks. Past and future of deal.II

Monday, July 23, 2018 9:00 AM (45 minutes)

deal.II is now 20 years old. I'll give a brief overview of how it started, how it has developed, and where I see it going in the future. This includes both the technical side and, in particular, the social side: deal.II is not just a software project, but also a community of developers and users.
