

HPC TS

WORKSHOP ON HIGH PERFORMANCE COMPUTING

FIRST EDITION

The workshop is a unique and international event that highlights the state of art of High Performance Computing applied to Computational Science and Engineering.

The workshop will be held in Trieste, (Italy) at SISSA, the International School for Advanced Studies, and it's a great opportunity for leading scientists, students and vendors.

It's organized by the Master in High Performance Computing (MHPC), an innovative degree program that prepares students for the fast-growing field of HPC.

WHEN

FEBRUARY 24 to 26, 2016

WHERE

SISSA

TRIESTE (ITALY)
