

# **Trieste Encounters on Cognitive Science, Language Learning**

**Thursday 07 July 2016 - Friday 15 July 2016**

**SISSA main building**

## **Scientific Programme**

Here's a closer-to-final version of TEX2016 program, with the very welcome addition of a number of contributed papers, and three special talks by Tim Shallice, Romain Brasselet, and Chris Mathys.

This schedule is still a living organism, so it hasn't stopped learning and evolving. But it's closer to maturity, when entropy drops dramatically -- it is not likely to change much in the future. We count on you, bunch of thriving youngsters, to inject loads of fresh energy into the system in a few days!
