

# Uncertainty Quantification for Cardiac Electrophysiology

## Fast multifidelity methods for clinical practitioners

A. Quaglino<sup>1</sup>, S. Pezzuto<sup>1</sup>, R. Krause<sup>1</sup>, P-S. Koutsourelakis<sup>2</sup>

<sup>1</sup> Center for Computational Medicine in Cardiology, Università della Svizzera Italiana, Lugano, Switzerland

<sup>2</sup> Professur für Kontinuumsmechanik, Technische Universität München, Germany

- *Nonlinear*
- *Patient-specific*
- *No offline training*
- *Bayesian*
- *Multifidelity*
- *$\infty$ -dimensional uncertainties*
- *Geodetically-correlated random fields*
